The Declarant hereby appoints H T DEVELOPMENT COMPANY, LLC, as the Architectural Control Committee. At such time as Declarant no longer owns any Lot, Tract or other portion of the Property or at such earlier date as Declarant releases its right to appoint the members of the Architectural Control Committee, the members of the Architectural Control Committee shall thereafter be appointed by the Board. The members of the Architectural Control Committee shall be appointed annually and will be composed of at least three (3) and not more than seven (7) individuals, the exact number of members of the Architectural Control Committee to be designated from time to time by the body then having the authority to appoint such members (Declarant or the Board, as the case may be). Such architectural and design guidelines shall be explanatory and illustrative of the general intent of the development of the Property and are intended as a guide to assist the Architectural Control Committee in reviewing plans and specifications for Improvements. Such architectural and design guidelines shall also set out, among other things the procedures for submission, review and approval of plans and specifications to the Architectural Control Committee, as more specifically described in Section 9 hereof. In any event, such architectural and design guidelines shall not be binding upon the Architectural control Committee, may be revised and amended at any time by the Architectural Control Committee, in its sole discretion, and shall not constitute, in every event, the basis for approval or disapproval of plans, specifications, and other materials submitted to the Architectural Control Committee for approval.

(b) The Architectural Control Committee shall promulgate and amend from time to time landscape guidelines which shall establish approved standards, methods and procedures for landscaping, landscape management and landscape maintenance in the Property, including the removal of trees. Such authorized standards, methods and procedures shall be utilized by Owners, and their contractors and sub-contractors and the approval by the Architectural Control Committee of any landscaping plan or other Improvement in connection with landscaping on a Lot shall be based upon the conformity of such plan or Improvement with such landscape guidelines. In any event, such landscape guidelines shall not be binding upon the Architectural Control Committee, in its sole discretion, and shall not constitute, in every event, the basis for approval or disapproval of landscaping plans, specifications and other materials submitted to the Architectural Control Committee for approval.

Section 4. Definition of "Improvements". The term "Improvement" or "Improvements" shall mean and include any and all man-made changes or additions to a Lot, including but not limited to the location, materials, size and design of all buildings (including any exterior devices attached to or separate from buildings, such as heating and air conditioning equipment, solar heating devices, antennae, etc.), storage sheds or areas, roofed structures, parking areas, fences, "invisible" pet fencing, pet "runs", lines and similar tethers or enclosures, walls, landscaping (including cutting of trees), hedges, mass plantings, poles, driveways, ponds, lakes, changes in grade or slope, site preparation, swimming pools, hot tubs, statues or statuary, Jacuzzis, tennis courts, tree houses, basketball goals, skateboard ramps, and other sports or play apparatus, signs, exterior illumination and changes in any exterior color or shape. The definition of Improvements, however, does not include the replacement or repair which does not change exterior colors, materials, designs or appearances from that which were previously approved by the Architectural Control Committee.

Section 5. Enforcements. It is Declarant's intent that the architectural control provisions of this Declaration and any Additional Declarations are to permit control of the architectural design and landscaping and to establish quality standards for construction and construction activity in the Project and to help preserve values of properties in the Project. All owners by purchasing property subject to this Declaration acknowledge that a violation of such provisions could result in irreparable harm and damage to Owners of property in the Project and Declarant, and to the values of their properties, a monetary measure of which harm and damage would be difficult to establish. Accordingly, the Association shall have the specific right (but no obligation) to enforce and/or to prevent any violation of the provisions contained in this Article VI by a proceeding at law or in equity against the person or persons violating or attempting to violate any such provisions. Declarant hereby specifically grants unto the Architectural Control Committee of the Board and any agent or member thereof, the right of entry and inspection upon any portion of the Property for the purpose of determination by the Architectural Control Committee of the Board whether there exists any construction of any Improvement which violates the terms of any approval by the Architectural Control Committee, the terms of the Architectural Control Committee, the terms of the Architectural and Landscape Guidelines, the terms of this Declaration or any Additional Declaration, or any amendments hereto or thereto.

•

(b) As to non-conforming or unapproved Improvements, the Association may require any Owner to restore such Owner's Improvements to the condition existing prior to the construction thereof (including, without limitation, the demolition and removal of any unapproved Improvement) if such improvements were commenced or constructed in violation of this Article VI. In addition, the Association may, but has no obligation to cause such restoration, demolition and removal to be done and performed and to levy the amount of the cost thereof to be done and performed as a Special Individual Assessment against the Lot, upon which such Improvements were commenced or constructed. In the event that it becomes necessary to resort to litigation to determine the propriety of any constructed improvements, to remove any unapproved Improvements or otherwise to remedy a violation of the Architectural and Landscape Guidelines, the Association shall be entitled to the recovery of court costs, attorneys' fees and expenses incurred by the Association and/or the Architectural Control Committee in connection therewith, which costs, fees and expenses may be levied as a Special Individual Assessment against the Lot, tract or other portion of the Property upon which such Improvement was commenced or constructed.

Section 6. Action by the Architectural Control Committee. The Architectural Control Committee or its designated agent shall have 15 days after physical receipt of the Plans to accept or reject the same in whole or in part. If no response by the Architectural Control Committee has been made in writing within said 15 days, the Lot Owner or his builder shall notify the Architectural Control Committee c/o the managing partner of the Declarant by certified mail at address for such

notices set forth in the current edition of the Architectural Guidelines for the Subdivision that no response has been made to the plans submission and that the Architectural Control Committee has 15 days left to make such response or the plans will be automatically approved as submitted. Thereafter, if not approval is given within 15 days after such notice is given the Architectural Control Committee, the Plans shall be deemed to be approved as submitted. After the Plans are approved and after the Architectural Control Committee gives written permission for construction to begin, the actual construction shall be commenced and completed in accordance with the approved Plans, together with the requirements of the Declaration. The actual construction shall be the responsibility of the Owner of the Lot and his builder. Any permission granted for construction under this covenant shall not constitute or be construed as approval by the Declarant or the Architectural Control Committee or its designated agent of the structural stability, design or quality or any building or other improvement. The architectural control approval as provided herein shall remain in the Declarant, or its successors and assigns.

If plans and specifications or other submittals are not sufficiently complete or are otherwise inadequate, the Architectural Control Committee may reject them as being inadequate or may approve or disapprove part, conditionally or unconditionally, and reject the balance. The Architectural Control Committee is authorized to request the submission of samples of proposed construction materials.

Section 7. Variances. Upon submission of a written request for same, the Architectural Control Committee may from time to time, in its sole discretion, permit Owners to construct, erect or install Improvements which are at variance with restrictions, requirements or provisions of this Declaration or any Supplemental Declaration from which a variance is permitted, pursuant to the terms hereof or thereof. In any case, however, such variances shall be in basic conformity with and shall blend effectively with the general architectural style and design of the community and shall not materially change the scheme of restrictions herein set forth. Written requests for variances shall be deemed to be disapproved in the event the Architectural Control Committee has not expressly and in writing, approved such request within thirty (30) business days of the submission of such request. No member of the Architectural Control Committee shall be liable to any Owner for any claims, causes of action, or damages arising out of the grant or denial of any variance to any Owner. Each request for a variance submitted hereunder shall be reviewed separately and apart from other such requests and the grant of a variance to any Owner shall not constitute a waiver of the Architectural Control Committee's right to strictly enforce the covenants, restrictions and architectural standards provided hereunder or under any Additional Declaration, against any other Owner.

Section 8. Fees Required by Architectural Control Committee. The Architectural Control Committee, in its sole discretion, may require that each Person submitting plans and specifications for Improvements to the Architectural Control Committee pay one or more fees to the Architectural Control Committee or to Declarant as a condition to commencement or construction of such Improvements. The Architectural Control Committee shall provide a list of Approved Builders in accordance with the provisions of the Architectural and Landscape Guidelines.

Section 10. No Construction Without Payment of Fees and Use of an Approved Builder. Notwithstanding anything contained in this Article VI to the contrary, plans and specifications for Improvements to be constructed on a Lot, Tract or other portion of the Property shall not be deemed to have been properly submitted unless and until any and all fees required by the Architectural Control Committee to be paid in connection with such Improvements, as provided in Section 9 above, shall have been paid to the Architectural Control Committee or Declarant as required. In addition, such plans and specifications shall not be deemed to have been properly submitted unless

Section 11. Notices and Submittals. Notices and submittals to the Architectural Control Committee shall be in accordance with the notice provisions set forth from time to time in the Architectural and Landscape Guidelines.

Section 12. Limitation of Liability. Every person who submits plans or specifications, and every Owner, agrees that he will not bring any action or suit against Declarant, the Association, any Association, the Architectural Control Committee, the Board, or the officers, directors, members, employees, agents or affiliates of any of them, to recover any such damages and hereby release, demises and quit claims all claims, demands and causes of action arising out of or in connection with any judgment, negligence or nonfeasance and hereby waives the provisions of any law which provides that a general release does not extend to claims, demands and causes of action not known at the time the release is given. All costs, expenses and attorneys' fees of the Architectural Control Committee including those incurred in connection with their enforcement or other powers as provided herein, shall be bond by the Association; provided however, that nothing herein shall be deemed to negate the Association's right to an award of court costs, attorneys' fees and expenses in accordance with Section 5 hereof.

While a residence is being constructed on a Lot the Owner shall provide an approved portable toilet (Porta-John) and construction material dumpster which shall be serviced, maintained and dumped on a regular basis.
